

## **SAFETY INNOVATION OF THE YEAR**

### **Nomination Form**

This award recognises a practical innovation that enhances the safety of drilling crews in the field.

The nominated solution may be a piece of equipment, software, communication method, or other tool that is currently in use and delivering real-world safety improvements.

We're looking for innovations that go beyond theory – those that demonstrate clear safety benefits, have been successfully applied on-site, and make a measurable difference to the wellbeing of personnel.

Please complete the details below to nominate a safety innovation worthy of industry recognition.

Company: \_\_\_\_\_

Primary contact name: \_\_\_\_\_

Primary contact email address: \_\_\_\_\_

Primary contact phone number: \_\_\_\_\_

What is the nominated innovation is called:

\_\_\_\_\_

Describe some background information on what the safety innovation is. If you have photos, please include them with the submission:
